

Abdullahi Uzairu

AS 39 Kagoro Close Tudun wada Kaduna
09121502319, 08030925539 | abduolkingston@gmail.com

Objective

Looking for an entry-level position as an Electrical and Instrumentation Engineer to leverage my strong foundation in electrical engineering principles, programming languages, and instrumentation techniques. I aim to contribute to a team-oriented environment and enhance my skills while making a positive impact on the organization.

Experience

- African Natural Resources and Mines Ltd (17.675MW WHRB Power Plant)** 1st April 2023 - Till Date
DCS Turbine and Boiler Operator
 - Major parameters monitoring as following with Carefully. Wheel Chamber Pressure & temperature, Governor, RPM, HP Demand, Oil Tank level, Vacuum Pressure & Temperature, Ejector & Gland Sealing Pressure & Temperature, CEP, CST Level Air Cooled Steam Condenser, Hot Well Tank level, Gear Box Temperature & Vibration, Bearing Gear Motor Rotation, ACC fin Cleaning, Oil Cooler Temperature Bleed Extraction Control, MOP, AOP, EOP
 - Compiling daily totalizer Report on Power Generation and Steam Consumption.
- African Natural Resources and Mines Ltd (17.675MW WHRB Power Plant)** October 2022 - March 2023
Electrical and Instrumentation J. Engineer 1
 - Control Panel Troubleshooting and Operating (Switch gear, HT panel operation, VFD Panel Synchronization Panel, AVR Panel, Relay and Metering Panel, MCC & PCC Pane
 - Maintenance and Installation of Electrical (Motor starter, Power Cable sizing) Instrument and control (Pressure Transmitters, Pressure Switches, Flow Transmitter, Temperature etc)
 - Compiling Daily Energy Consumptions and Shift activities and carrying out assessment of the Section to ensure safety and clean condition of the areas during and after every intervention.
- African Natural Resources and Mines Ltd (17.675MW WHRB Power Plant)** April 2022 - October 2022
Graduate Engineer Trainee Electrical and Instrumentation
 - Hands-on Experience:** As a trainee, i involved in hands-on projects and assignments related to electrical engineering. This include assisting in the design, installation, and maintenance of electrical systems, troubleshooting electrical issues, and conducting experiments and tests in a laboratory setting. These experiences help me in applying my theoretical knowledge, to develop technical skills, and gain practical insights into the field.
 - Rotational Training:** This allows me to gain exposure to various aspects of electrical systems in power plant, such as power protection systems, control sytem, Instrumentation. It also helps me develop a well-rounded understand of the field and provides me with the opportunities to apply my theoretical knowledge to practical situations.

Education

- Kaduna Polytechnic** 2021
HND Electrical and Electronics Engineering
- Kaduna Polytechnic** 2016
National Diploma Electrical and Electronics Engineering

Skills

- Embedded Systems Design
- Strong Troubleshooting Techniques
- Programming: C/C++, Arduino and Phytion
